Profile

I am a dedicated and motivated B.Tech Information Technology student with a strong interest in full stack development and artificial intelligence. I have worked on web development projects such as Library Management System and Student Result Management System using HTML, CSS, JavaScript, PHP, and MySQL, with a focus on simple design and ease of use. I have also participated in Smart India Hackathon (SIH) on an attendance management problem statement, which helped me develop problem-solving and teamwork skills. I enjoy solving real-world problems using technology and am always eager to learn and improve my technical skills.

Intern Project

07/2025 – 07/2025
Chennai

Student Result Management System - Full Stack Web Application (Summer Internship)

Web-based Student Academic Result Management Platform

• Designed and developed a student result management system to store and manage student academic records efficiently.
• Implemented admin functionality to add, update, and manage student details, subjects, and examination marks.
• Developed student login module to securely view semester-wise results and grades.
• Built responsive and user-friendly interfaces using HTML and CSS for easy navigation.
• Applied JavaScript for form validation and interactive user experience.
• Implemented backend logic using PHP to handle authentication, result processing, and database operations.
• Used MySQL database to store student information, subject details, and result data securely.
• Automated total marks and grade calculation to reduce manual errors and improve accuracy.
• Ensured proper data flow between frontend and backend using PHP–MySQL integration.
• Tools & Tech: HTML, CSS, JavaScript, PHP, MySQL.

Education

2023 – 2027
Ranipet, INDIA

B TECH-INFORMATION TECHNOLOGY (IT)

C Abdul Hakeem College of Engineering and Technology

Pursuing Bachelor of Technology (B.Tech) in Information Technology at C Abdul Hakeem College of Engineering and Technology, with a focus on full stack development and artificial intelligence. Actively engaged in coursework, academic projects, and practical learning to build strong technical, problem-solving, and software development skills.

Skills

Programming Language ●○○○○
JAVA(BASIC),PYTHON(BASIC),C(BASIC)

UI & UX ●●●○○
Wireframing, Prototyping, Visual Design, Usability Testing, Responsive Design.

Full Stack Development ●●●○○
Frontend (HTML, CSS, JavaScript), Backend (PHP), Database (MySQL)

Web Development ●●●○○
CSS, JavaScript

Data Analysis & Visualization ●●●○○
Pandas, NumPy, Matplotlib

Tools & Technologies ●●●○○
Git, GitHub, VS Code

Languages

- English
- Urdu
- Tamil
- Hindi

Interests

- Playing Cricket
- Swimming
- Trekking
- Adventure activities

Certificates

Smart India Hackathon (SIH) – Participation
Participation: Participated in Smart India Hackathon (SIH), working on an Attendance Management System problem statement. Collaborated with a team to analyze the problem, design solution workflows, and propose a technology-driven approach for efficient attendance tracking. Contributed to idea development, system design, and presentation, demonstrating problem-solving ability, teamwork, and practical understanding of real-world challenges.

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
Certification: Successfully completed the Oracle Cloud Infrastructure (OCI) 2025 AI Foundations Associate certification. Gained foundational knowledge of artificial intelligence concepts, machine learning basics, and Oracle Cloud AI services. Developed an understanding of AI use cases, data-driven decision making, and cloud-based AI solutions.
